Portfolio: <https://about-omkar625.lovable.app>

SKILLS

- **Programming:** Java, JavaScript
- **Backend:** Spring Boot (Basic)
- **Frontend:** React, HTML, CSS, Bootstrap
- **Databases:** MySQL
- **Concepts:** OOP, REST APIs, MVC, CRUD

EDUCATION

- Sarala Birla University | MCA **CGPA: 7.82 | (2023-2025 - June)**
- Sarala Birla University | BCA **CGPA: 6.58 | (2020-2023)**

PROJECTS

- **Airbnb - Hotel Management System**
Live: <https://airbnb-hotel-management-system.onrender.com>
 - Developed a fully functional Airbnb-like web application using the **MERN stack** (MongoDB, Express.js, React.js, Node.js), along with **JavaScript**, **Bootstrap**, **Material UI**, **HTML**, and **CSS**.
 - Implemented **user authentication & authorization** with secure login/registration.
 - Integrated **Map Box API** for geo-location-based hotel search.
- **MDT - Finance Management System**
GitHub: <https://github.com/kumaromkar015/Finance>
 - Built a full-stack finance system using Java, Spring Boot, HTML, CSS, Bootstrap, and JavaScript.
 - Implemented RESTful APIs with CRUD operations and tested endpoints using Postman.
 - Applied Collections Framework, Exception Handling, and integrated database operations.

INTERNSHIPS & TRAINING

- **Full Stack Developer - Intern | CodeZeal Technologies pvt ltd**
Sep 2024 – Dec 2024
 - Collaborated on a finance management project using **Java**, **Spring Boot**.
 - Developed database driven application using **JDBC** and performed **CRUD** operations and validated RESTful API endpoints using Postman.
 - Worked closely with another developer, demonstrating teamwork and coordination.
- **Java developer - Trainee | QSpider**
August 2025 – Present
 - Completed intensive training in Core Java, Collections Framework, Exception Handling, JDBC, and RESTful API development.
 - Built CRUD-based applications and tested APIs using Postman with database integration.
 - **Concepts:** Core Java, OOP, Collections Framework, Exception Handling, JDBC, Spring Boot, RESTful APIs, Authentication & Authorization, MySQL, HTML5, CSS3, JavaScript, Git.

CERTIFICATES

- Full stack development – Java
- Full stack development - MERN
